### My Skills

#### HTML

#### CSS

#### JavaScript

#### C++

### Education Background

- Software Engineering Undergraduate

General Sir John  
Kotelawala Defense  
University

### Projects

- ToDo List Web App**

A simple ToDo app with local storage, allowing users to add, edit, and delete tasks in a clean UI.

- Calculator App**

A web-based calculator that performs all basic arithmetic operations with a clean interface.

- Weather App**

Fetches real-time weather data from an API and displays it in a responsive, clean design.

- Smart Waste Segregation System**

Designed a system using Arduino and sensors to detect and sort waste automatically.

Technologies: Arduino, Ultrasonic Sensor, Servo Motor
